GOVERNMENT MOTION

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.

3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

NOTICES

GOVERNMENT MOTION

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 11

Mr. Davis—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. *To be debated today.*

Ballot Item No. 12

Mr. Lupusella—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. *To be debated today.*

Ballot Item No. 13

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, January 16, 1986.*

Ballot Item No. 14

Second Reading Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling. To be debated Thursday, January 16, 1986.*

Ballot Item No. 15

*Ms. Bryden—Resolution—*That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, January 23, 1986.*

Ballot Item No. 16

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier. To be debated Thursday, January 23, 1986.*

Ballot Item No. 27

*Mr. Laughren—Resolution—*That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 11

Mr. Davis—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. *To be debated Thursday, January 16, 1986.*

Ballot Item No. 12

Mr. Lupusella—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. *To be debated Thursday, January 16, 1986.*

Ballot Item No. 13

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, January 23, 1986.*

Ballot Item No. 14

NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.

3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with

the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

(1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

(2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with

the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.

33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with

the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.

33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

Ballot Item No. 15

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, January 30, 1986.*

Ballot Item No. 16

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier. To be debated Thursday, January 30, 1986.

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. To be debated Thursday, February 6, 1986.

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. To be debated Thursday, February 6, 1986.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Debated January 16, 1986.*
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclo-

sure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Friday will appear on each day of the following week.)

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Items Nos. 11 and 12. *Debated Thursday, January 16, 1986.*

Ballot Item No. 13

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. To be debated Thursday, January 23, 1986.

Ballot Item No. 14

Second Reading Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. Mr. Sterling. To be debated Thursday, January 23, 1986.

Ballot Item No. 15

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. To be debated Thursday, January 30, 1986.

Ballot Item No. 16

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier. To be debated Thursday, January 30, 1986.

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. To be debated Thursday, February 6, 1986.

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

(1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

(2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
 31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
 32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
 33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

*Ms. Bryden—Resolution—*That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, January 30, 1986.*

Ballot Item No. 16

*Mr. South—Resolution—*That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, January 30, 1986.*

Ballot Item No. 17

*Mr. Villeneuve—Resolution—*That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 18

*Mr. Morin-Strom—Resolution—*That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are

precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

NOTICES

GOVERNMENT MOTIONS

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
15. *Mr. Nixon*—Resolution—That the following Vote and Item of the 1985-86 Estimates for the Resources Development Policy Programme (Niagara Escarpment Commission) be considered as part of the Estimates of the Ministry of Municipal Affairs, the said Vote and Item to be considered by the Standing Committee on Resources Development within the time allocated for the Estimates of the Ministry of Municipal Affairs and to be included within the Order for Concurrence in Supply for the said Ministry:

VOTE and Item	PROGRAMME AND ACTIVITY	1985-86 Estimates
2001	RESOURCES DEVELOPMENT POLICY PROGRAMME	
3	Niagara Escarpment Commission	\$ 1,531,700
	Amount to be voted	<u>\$ 1,531,700</u>

16. *Mr. Nixon*—Resolution—That the following Vote and Items of the 1985-86 Estimates for the Francophone Affairs Programme, forming part of the Estimates of Cabinet Office, be considered for 2 hours 30 minutes in the Standing Committee on Resources Development following completion of the Estimates of the Ministry of Industry, Trade and Technology:

VOTE and Item	PROGRAMME AND ACTIVITY	1985-86 Estimates
302	FRANCOPHONE AFFAIRS PROGRAMME	
1	Francophone Affairs Co-ordination	\$ 1,864,400
2	Council for Franco-Ontarian Affairs	<u>402,700</u>
		2,267,100
	Less: Special Warrant	<u>200,000</u>
	Amount to be voted	<u>\$ 2,067,100</u>

17. *Mr. Nixon*—Resolution—That the Order of the House of Thursday, June 16th, 1983, as amended on Friday, November 30th, 1984, and Friday, July 5th, 1985, authorizing and prescribing the Terms of Reference of the Commission to Redistribute the Ontario Electoral Districts be amended by striking out the word "thirty" in the tenth line of the tenth paragraph thereof and substituting "sixty" therefor, so that the paragraph will read as follows:

That, if within the first eight sitting days of the 1985 Session of the Legislative Assembly, an objection in writing signed by not less than ten Members of the Assembly, in the form of a motion for consideration by the Assembly, is filed with the Clerk of the House, specifying the provisions of the Report objected to and the reasons for the objection, the Assembly shall, within the next fifteen sitting days, or such additional number of days as the Assembly may order, take up the motion and consider the matter of the objection; and thereafter, the Report shall be referred back to the Commission by the Speaker, together with a copy of the objection and of the Debates of the Assembly with respect thereto for consideration by the Commission, having regard to the objection; within *sixty* days after the day the Report of the Commission is referred back to it, the Commission shall consider the matter of the objection and shall dispose of such objection and forthwith upon the disposition thereof a certified copy of the Report of the Commission, with or without amendment, shall be returned by the Commission to the Speaker.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.

3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

 31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.

 32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.

 33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

GOVERNMENT MOTIONS

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*

15 and 16. Debated January 21, 1986.

17. *Mr. Nixon*—Resolution—That the Order of the House of Thursday, June 16th, 1983, as amended on Friday, November 30th, 1984, and Friday, July 5th, 1985, authorizing and prescribing the Terms of Reference of the Commission to Redistribute the Ontario Electoral Districts be amended by striking out the word “thirty” in the tenth line of the tenth paragraph thereof and substituting “sixty” therefor, so that the paragraph will read as follows:

That, if within the first eight sitting days of the 1985 Session of the Legislative Assembly, an objection in writing signed by not less than ten Members of the Assembly, in the form of a motion for consideration by the Assembly, is filed with the Clerk of the House, specifying the provisions of the Report objected to and the reasons for the objection, the Assembly shall, within the next fifteen sitting days, or such additional number of days as the Assembly may order, take up the motion and consider the matter of the objection; and thereafter, the Report shall be referred back to the Commission by the Speaker, together with a copy of the objection and of the Debates of the Assembly with respect thereto for consideration by the Commission, having regard to the objection; within *sixty* days after the day the Report of the Commission is referred back to it, the Commission shall consider the matter of the objection and shall dispose of such objection and forthwith upon the disposition thereof a certified copy of the Report of the Commission, with or without amendment, shall be returned by the Commission to the Speaker.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
 31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
 32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
 33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

NOTICES

GOVERNMENT MOTIONS

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
17. *Mr. Nixon*—Resolution—That the Order of the House of Thursday, June 16th, 1983, as amended on Friday, November 30th, 1984, and Friday, July 5th, 1985, authorizing and prescribing the Terms of Reference of the Commission to Redistribute the Ontario Electoral Districts be amended by striking out the word “thirty” in the tenth line of the tenth paragraph thereof and substituting “sixty” therefor, so that the paragraph will read as follows:

That, if within the first eight sitting days of the 1985 Session of the Legislative Assembly, an objection in writing signed by not less than ten Members of the Assembly, in the form of a motion for consideration by the Assembly, is filed with the Clerk of the House, specifying the provisions of the Report objected to and the reasons for the objection, the Assembly shall, within the next fifteen sitting days, or such additional number of days as the Assembly may order, take up the motion and consider the matter of the objection; and thereafter, the Report shall be referred back to the Commission by the Speaker, together with a copy of the objection and of the Debates of the Assembly with respect thereto for consideration by the Commission, having regard to the objection; within *sixty* days after the day the Report of the Commission is referred back to it, the Commission shall consider the matter of the objection and shall dispose of such objection and forthwith upon the disposition thereof a certified copy of the Report of the Commission, with or without amendment, shall be returned by the Commission to the Speaker.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
 31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
 32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
 33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

 205. *Mr. Runciman*—Enquiry of the Ministry—Would the Minister of Consumer and Commercial Relations disclose whether, since July 1, 1985, Monte Kwinter Real Estate Limited has had any contractual involvement, directly or indirectly, with the Government of Ontario. If yes, please provide details. *January 17, 1986.*
 206. *Mr. Runciman*—Enquiry of the Ministry—Has the Minister of Consumer and Commercial Relations, in conformity with the Executive Council conflict of interest guidelines, disclosed his interest in Monte Kwinter Real Estate Limited. If so when. If he still holds that interest, would he indicate his present degree of participation in the business, and does he consider it appropriate in light of his Ministry's responsibility for the Real Estate and Business Brokers Act. *January 17, 1986.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 13

Second Reading Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. Mr. Sterling. To be debated today.

Ballot Item No. 14

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. To be debated Thursday, January 30, 1986.

Ballot Item No. 15

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. To be debated Thursday, January 30, 1986.

Ballot Item No. 16

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. To be debated Thursday, February 6, 1986.

Ballot Item No. 17

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United

States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 21

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

Ballot Item No. 26

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
